

ACIL Tasman Pty Ltd, economic advisors – company profile

Company profile

ACIL Tasman's industry consultants can assist you with economic policy analysis across a range of sectors, as well as undertake economic forecasting.

We have 25 years of Australian and international experience in economic and business advice, government policy and regulation, and development of markets.

Assignments have covered Australia, New Zealand and most key countries in the Asia-Pacific region, including China, Malaysia, the Philippines, Indonesia, India, PNG, Fiji, Korea and Samoa. ACIL Tasman's expertise in economic analysis and modelling makes us particularly well suited to analyse the institutional arrangements and regulation that govern infrastructure in our region, including electricity, gas, water, transport and communications.

Our consultancy strength is in the quality of our team. Many of our staff members have previously worked for highly respected companies, research institutions, government advisory and central agencies, and international organisations such as the IMF, World Bank and the OECD.

ACIL Tasman specialises in the analysis of markets, their competitive dynamics and their regulation.

We undertake a broad range of assignments across many industry sectors, applying our considerable fund of knowledge and expertise for a wide range of clients.

The ACIL Tasman team is familiar with the analysis that must be undertaken to support well-founded and sustainable decisions. Our team uses strong analytical foundations and frameworks to deliver focused outcomes and solutions for our clients. Our consultants have the proven ability to:

- conduct rigorous economic and policy analysis and
- present cogent advice to clients and target audiences.

A team approach is adopted for many projects to ensure assignments are addressed from appropriate perspectives and disciplines. Depending on client needs, ACIL Tasman may engage subcontractors with specific subject matter knowledge or complementary skills.

ACIL Tasman welcomes inquiries about career opportunities.
